

Documentation for Students Choosing a Third Credit of Math other than Algebra II

Student Name _____

Parent or Guardian Name _____

Graduating Year of Student _____

I have met with _____ to discuss the option of my son or
(advisor/school counselor/administrator)

daughter taking the following course, _____. This course
replaces Algebra II to meet the third math credit graduation requirement for students in the graduating class
of 2013 and beyond.

I understand students may choose a math course other than Algebra II, if another course better meets their
education and career goals, as identified in their high school and beyond plan.

During our meeting, we received information about the math admission requirements for two- and
four-year colleges, and for credit-bearing math courses at both types of institutions.
