

Classroom Management, Discipline and Corrective Action

Rules of student conduct are essential to maintain a school environment conducive to learning. A student's refusal to comply with written rules and regulations established for the governing of the school will constitute sufficient cause for discipline.

Staff are responsible for supervising student behavior, employing effective classroom management methods and enforcing the rules of student conduct in fair, consistent and non-discriminatory manner. Corrective action must be reasonable and necessary under the circumstances and reflect the district's priority to maintain a safe and positive learning environment for all students and staff.

Students and/or their parents/guardians will be provided all required substantive and procedural due process in regards to grievances, hearings and/or appeals of corrective action. The district will assist long-term suspended and expelled students in returning to school as soon as possible by providing them with a re-engagement plan tailored to the student's individual circumstances, including consideration of the incident that led to the student's long-term suspension or expulsion.
