

***TeacherInsight* Interview**

The *TeacherInsight* online interview is required ONLY for Teacher and Substitute applicants, and only one time.

As an initial part of the Clover Park School District application process, Teacher and Substitute Applicants participate in a web-based interview designed by The Gallup Organization. This information is used to assist in identifying the candidates that best fit various positions and schools throughout the District.

- The *TeacherInsight* interview will require approximately 45 minutes of uninterrupted time. If you do not have the time to take the interview, you must create your login and password for the Gallup site; then bookmark the site so you can revisit it at a later time.
- *TeacherInsight* consists of multiple choice and Likert-type items (responses on a one to five scale).
- Instructions are contained within the *TeacherInsight* interview.
- Your application is NOT considered complete until this interview is finished.
- If you have previously taken the *TeacherInsight* interview for other districts, you do not have to retake it. After completing the appropriate Clover Park School District application, continue on into the Gallup website and provide your user name and password. By answering a few brief questions, Gallup will confirm your information and transfer your results to Clover Park School District.
- When to take the Clover Park School District Online Interview?
Teachers and substitute teachers will be directed to the *TeacherInsight* interview (Gallup site) following completion of the online Teacher application or the Substitute application. If applying for a specific open position, the required initial assessment needs to be completed prior to the position closing.
